Of note, is that this price adjustment reflects an increase in the acquisition price of LPG. This spike in acquisition is precipitated by cutbacks in production in major producing countries such as the United States, Mexico, Russia and OPEC.

The public is advised that the prices established for imported LPG are based on the mixtures of 70:30 (Propane: Butane) only as per requirement of the Belize National Standard Specification for Liquefied Petroleum Gas (LPG) BZS 21:2012.

For further information, kindly contact the office of the Belize Bureau of Standards at 822-0446, 822-0447 or via email at bbs@btl.net or scu@bbs.gov.bz.
