The Government advises the general public that amendments to the legislation in establishing **fixed prices** has become necessary to prevent predatory pricing by major importers who have engaged in an act of driving prices downward well below the maximum ceiling for retail and wholesale of LPG. This temporary measure therefore is critical to keep local operators of LPG in business.

The general public is advised that the prices established for imported LPG are based on the mixtures of 70:30 (Propane: Butane) only as per requirement of the Belize National Standard Specification for Liquefied Petroleum Gas (LPG) BZS 21:2012.
