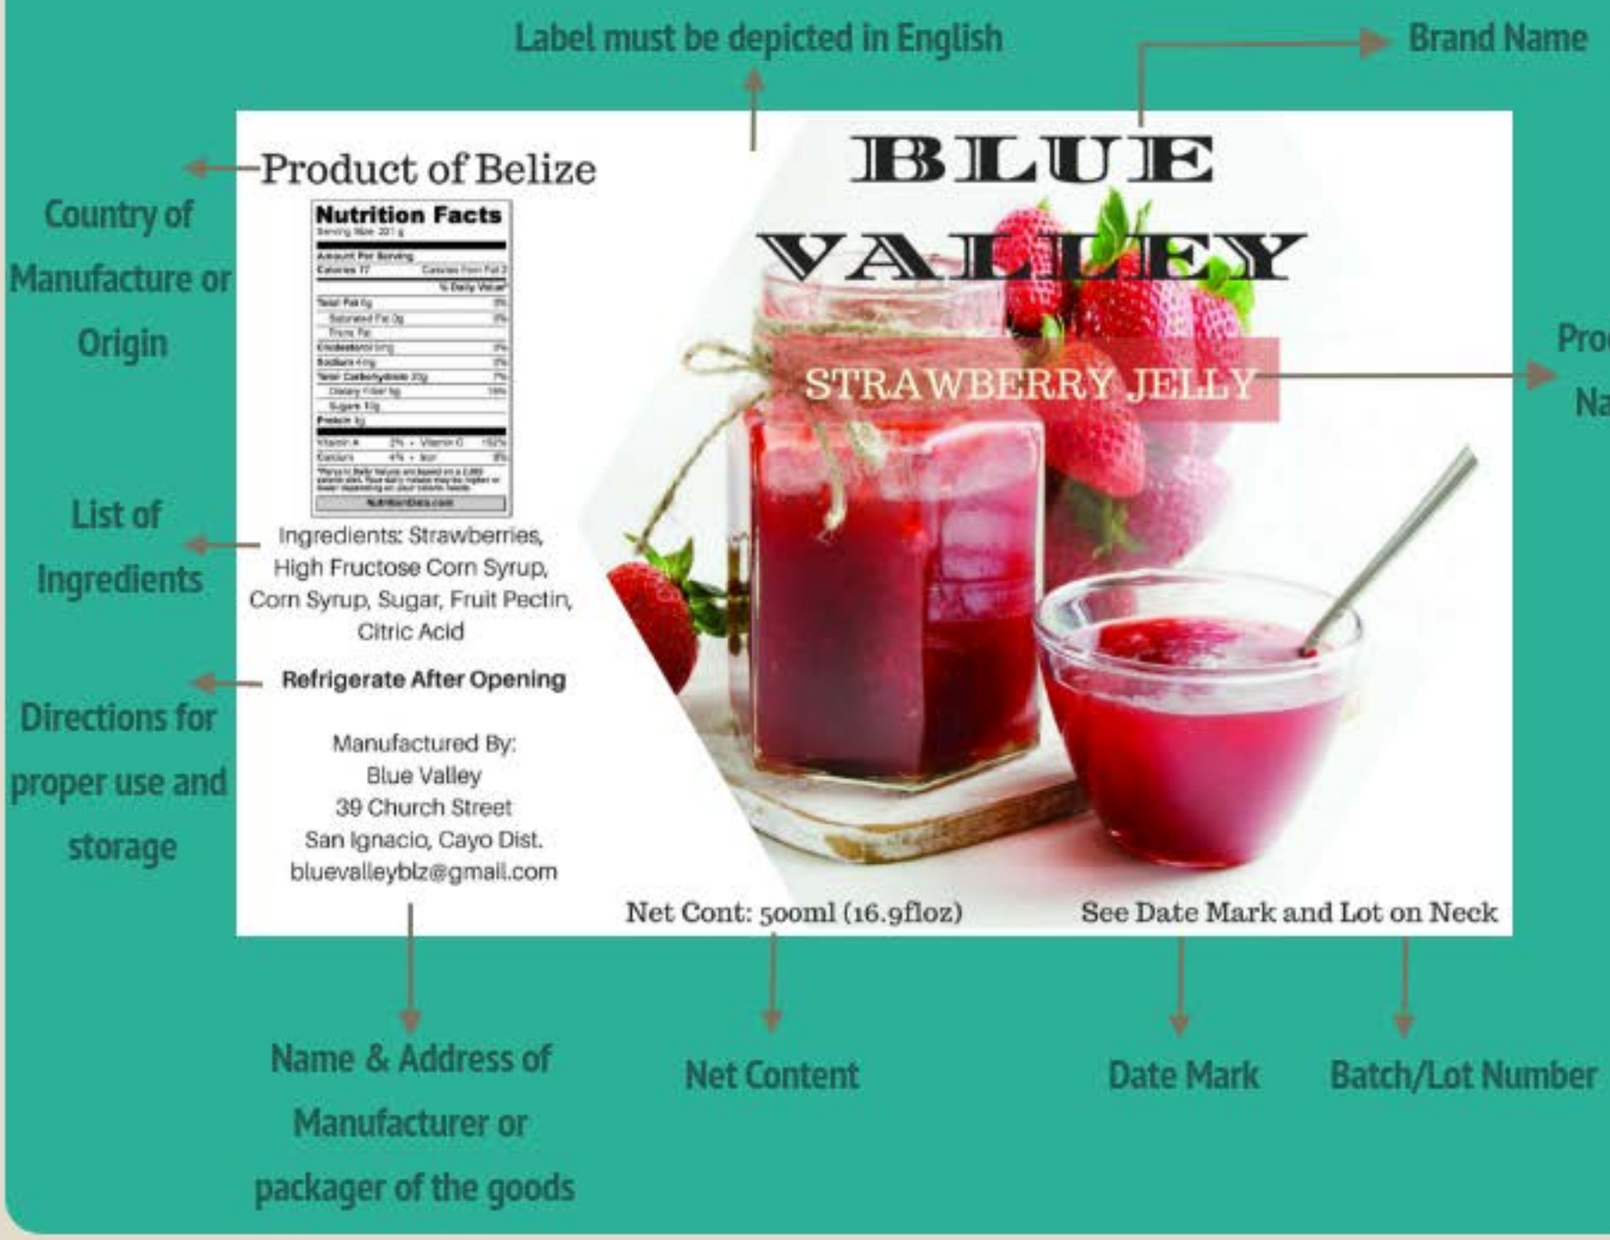
Belize Bureau of Standards

PRODUCT LABELLING

WHAT IS A PRODUCT LABEL?

The number of products in the marketplace are multiplying daily, and consumers are offered a variety of products to choose from and use. Product label is therefore information given to consumers on what the product is, help them choose the product they wish to purchase and guide them on how to use such products to avoid dangers to health, safety or life.

LABELLING REQUIREMENT



BELIZE NATIONAL STANDARDS FOR LABELLING

BZS 1: Part 1: 1998 - Belize Standard: Specification for Labelling – General Principles.

BZS 1: Part 2: 1998 - Belize Standard: Specification for Labelling: Labelling of Prepackaged Goods.

BZS 1: Part 3: 1998 - Belize Standard: Specification for Labelling: Labelling of Prepackaged Foods.

BZS 1: Part 4: 1998 - Belize Standard: Specification for Labelling: Labelling of Retail Packages of Cigarettes.

BZS 1: Part 5: 2007 - Belize Standard: Specification for Labelling: Labelling of Brewery Products.

BZS 1: Part 7: 2012 - Belize Standard: Specification for Marking and Labelling of Gas Cylinders

PRODUCT LABEL EVALUATION

Product labels are evaluated against the relevant Belize National Standard.

To have your product label evaluated, submit a sample of your label to the Bureau's Office or an electronic copy via email.
