QF003	Document: Energy efficiency labelling of refrigerators – Specification, labelling and conformity – DCRS 57: 201X
-------	--

1	2	(3)	4	5	(6)	(7)
MB 1	Clause No./ Subclause No./ Annex / Figure / Table	Line Number	Type of com- ment 2	Comment (justification for change) by the MB	Proposed change by the MB	RTC observations on each comment submitted
LC	1	2	ed	The word “Refrigerators” is begins with a capital letter	“refrigerators” should be written without a capital letter in this sentence.	Accepted. Text changed
LC	1	1-4	te	It is unclear what types or classes of refrigerators are being covered by the standard. The definition of refrigerators is not clearly defined in the document.	A definition of a refrigerator and types and classes should be provided in the document.	Accept
LC	4.1	3	ed	Test methods are not in clause 5 but inserted in clause 6.	Clause 6 should be referenced instead of clause 5. The sentence should read: “Covered products may bear a certification mark only after being tested in accordance with clause 6”.	Accepted. The CA requirements have been removed from the Standard
LC	4.5 and 5.1b	5-6 & line 4		Speaks to appliances other than refrigerators. Only refrigerators should be included within this listing. The Scope only speaks to refrigerators.	The other appliances referenced should be removed.	Accepted
LC	8	1-4	te	This clause reads “All importers and domestic manufacturers of covered products shall report to the NBS and Ministry responsible for Energy”. However format or standard for this report is not established anywhere in the document. Questions about whether this reporting has been discussed with the ministry or NSB may arise. A system for verifying that the products were reporting was not identified in the clause	A definitive format or standard for reporting by importers and domestic manufacturers should be presented in an annex. Discussions with the responsible ministry of NSB should be conducted, as this is an administrative and even compliance issue. A system for verification of the reporting should be devised whether within the document or elsewhere.	Not accepted. The reporting guidance will be given in the conformity assessment protocol Agreed Agreed. A conformity assessment protocol document is expected to be developed

1 **MB** = Member body (enter the ISO 3166 two-letter country code, e.g. CN for China; comments from the ISO/CS editing unit are identified by **)

2 **Type of comment:** **ge** = general **te** = technical **ed** = editorial

NOTE Columns 1, 2, 3, 4, 5 are compulsory.
