The monthly increase seen in October is due to fluctuations in acquisition prices for LPG. This is a result of upward pressure on crude oil and its derivatives.

The general public is advised that the prices established for imported LPG are based on the mixtures of 70:30 (Propane: Butane) only as per requirement of the Belize National Standard Specification for Liquefied Petroleum Gas (LPG) BZS 21:2012. For further information, kindly contact the office of the Belize Bureau of Standards at 822-0446, 822-0447 or via email at bbs@btl.net or scu@bbs.gov.bz.
